Josh Peterson		joshpeterson@utah.gov		(435) 893-4722		81006

An Encroachment Permit is hereby authorized subject to Utah Administrative Code R930-6, R930-7, and any other applicable laws or regulations. By performing the activities authorized by this permit, the permittee agrees to strictly comply with all permit terms, conditions, and limitations (TC&L's), including any attachments submitted with the application. Failure to abide by all permit TC&L's, or any term set forth by this permit, is grounds for immediate verbal stop work order, written stop work order, permit revocation, the restriction of future permits, or other legal or equitable remedies.

In the event work is commenced under this permit and the permittee fails or refuses to complete the work, including performing substandard work, UDOT may, at its discretion, order the permittee to stop work and UDOT may correct any deficiencies or otherwise complete the permitted work at the expense of the permittee. Upon the receipt of an invoice for any costs, including all inspection costs, incurred by UDOT, the permittee shall immediately pay the amount due. If an action is required to be filed in court to collect the amount due, the permittee shall be liable for UDOT's costs and fees, including attorney fees. The permittee will strictly comply with the traffic control standards and warn the public of said work within UDOT's right-of-way to protect the traveling public and all personnel authorized within the permitted work zone. When traffic control is required, the permittee will not pre-stage any vehicles, equipment, personnel, or materials within any portion of UDOT's right-of-way until the required traffic control is in place. By accepting this permit, the permittee shall defend, indemnify, and hold harmless UDOT, its employees, consultants, contractors, agents, and the State of Utah, from all damages or claims, including attorney fees, arising out of the work performed under this permit by permittee, permittee's employees, agents, consultants, contractors, or subcontractors.

SPECIAL LIMITATIONS

PERMIT TERMS, CONDITIONS, AND LIMITATIONS

1. UDOT complies with a statewide stormwater Permit that requires control measures to minimize the discharge of pollutants to Waters of the State. As a Permittee, you are required to implement measures to prevent pollutants from entering UDOT's right-of-way. As a Condition of this Encroachment Permit, you must review the following stormwater fact sheets: udot.utah.gov/go/stormwaterfacts and udot.utah.gov/go/stormwaterpractices.
2. Use current edition of UDOT standard drawing for traffic control. Use Utah MUTCD standards for traffic control elements not shown in UDOT standard drawings. Traffic control must be posted at the encroachment site for entire encroachment period.
3. Contact station foreman before starting project.
4. Prior to any work within the right-of-way, a traffic control plan must be submitted to UDOT and reviewed by the UDOT Traffic Engineer.
5. Traffic Control Plans, signs and channelizing devices must conform to MUTCD Standards, as a minimum, and all signs must be equipped with three orange flags.
6. This agreement and/or permit is UDOT approval only. You are responsible to obtain clearances from railroads, private property owners and local jurisdictions that you are working within.
7. ANSI 107-2004 Class III clothing (or greater) is required of all workers within the right-of-way.
8. Call 811, or contact Blue Stakes and check for other utilities in the area prior to excavation.
9. If a historic, archeological, or paleontological item is encountered, construction shall be immediately stopped and UDOT notified.
10. Licensee must do all work in accordance with UDOT approved plans.
11. Notify UDOT upon completion of project for inspection.
12. Licensee is responsible for repairing and/or restoring any portion of the roadway damaged during construction.
13. Licensee must restore shoulder of highway to its original or better condition. Including reseeding, replacing sidewalk, fencing, pipe, culverts or signs removed or damaged during construction and any other roadway features.
14. Licensee shall keep highway free of mud and debris. A sweeper broom must be accessible for cleaning purposes.
15. The depth of bury for all utility facilities under pavement shall be a minimum of four (4) feet below the top of pavement or existing grade including open drainage features. Where utility facilities are installed within 20 feet from the edge of pavement, the depth of bury shall be a minimum of five (5) feet below top of grade so as to allow for installation of UDOT signs or delineators. Utility facilities under sidewalks shall be installed a minimum of three (3) feet below the top of sidewalk.
16. Permit Holder will comply with all applicable environmental laws.
17. Upon completion of project, contact the inspector as listed on this permit .

PERMIT TERMS, CONDITIONS, AND LIMITATIONS

18. By the accepting this permit, the Applicant acknowledges the hazardous nature of the work and agrees to assume full responsibility in the event of an accident or other incident involving death or injury to members of the Permitess Group or others, or property damage that results from negligence or intentional conduct on the part of any member of the group.
