

## CentraCom IP Justification Form

Note: Completion of this form is mandatory when requesting additional IP addresses greater than the amount of eight (8) addresses.

CentraCom abides to the policies of the American Registry for Internet Numbers (ARIN) regarding IP address allocation. As part of standard service provided, CentraCom will assign the amount of IP addresses that customers can justify for use. Written justification for any IP address(ess) requested is required so that we can demonstrate to ARIN that IP addresses allocated to CentraCom are being used efficiently. IPs may not, categorically, be allocated whereby not all are used for a valid, ARIN-mandated, purpose. Many providers run out of their IP address space and are unable to get more, if less than 80% of what they are assigned are being used. This is a result of customers requesting more IP addresses than they actually need, or abuse IPs by using them inefficiently. ARIN has been truly cracking down on this abuse over the last six months. We are a responsible internet citizen and will use and allocate IP addresses only as justified.
